## „Auf goldenen Pfaden“

3 towns, 6 stages, 75 kilometres and 4 643 metres of altitude difference make up the Gastein Trail. But not only that, but also lush alpine meadows, imposing summits, regional cuisine and cosy accommodation. The long-distance hiking trail through the entire valley presents itself as diverse as the region itself. After the invigorating daily stages, you can relax either on a charming alpine pasture or in a generous hotel - including the enjoyment of a thermal spa. If you don't want to carry too heavy a rucksack, you can easily book luggage transport (only possible between accommodations in the valley). An experience that leads to new paths with moments that will be remembered.
